LE CLAIRE UNTALAN

PROGRAMMER

OBJECTIVE

A dedicated and driven Information Technology student with a strong foundation in programming, multimedia editing, and communication. Adept at utilizing tools like Microsoft Office , and programming languages such as Java and C#.

PROJECTS

DAILY TIME RECORD – (DTR-PR)

December 2024

We developed a DTR (Daily Time Record) system using C# in Visual Studio 2022, SQL Server, and a biometric fingerprint scanner to automate employee attendance tracking. The system replaces traditional bundy clock methods, enabling employees to log their time accurately and securely using their fingerprints. This solution streamlines the attendance process, reduces errors, and simplifies the generation of attendance reports for payroll and HR purposes.

DAILY TIME RECORD (DTR-PR) MANUSCRIPT

December 2024

As an Analyst, I led the development of the DTR system using C# in Visual Studio 2022, SQL Server, and a biometric fingerprint scanner. I utilized Microsoft Word and Excel to document research and track the project's progress. The system automates attendance tracking, replacing traditional bundy clocks, and ensures accurate, secure time logging for efficient payroll and HR reporting.

ACHIEVEMENTS

- Best in Manuscript (Capstone Research) – STI ALAMINOS
- Best in Collaboration(Capstone Research) - STI ALAMINOS
- Leadership Awardee Vice Governor 12 SSG - GWC
- With Distinction Grade 12 - GWC
- With Distinction Grade 11 – GWC

ABOUT ME

I am passionate about technology, teamwork, and continuous learning to achieve professional excellence.

EDUCATION

2 YEAR-INFORMATION TECHNOLOGY , 2023-CURRENT

STI Alaminos, Pangasinan

SKILLS

- Basic Java
- Basic Python
- Basic JavaScript
- C# CSS and HTML
- Management Skills
- Creativity Editing Skills
- Computer Literate
- Leadership
- Front-End Designer
- Proficient in Microsoft Office (Word, Excel, PowerPoint, Outlook)
